

Mr. Danielson is an attorney, professor, researcher and consultant on minerals policy, national development strategies, and environmental and social performance in the mining and oil and gas industries. He is known for his work both on international and national levels on minerals policies, and has worked with over a dozen governments, including Mongolia, Mozambique, Chile, Peru,

Ecuador, and the Peoples Republic of China. He was a 2015 inductee into the International Mining Technology Hall of Fame for his contributions to Environmental Management and Stewardship.

Mr. Danielson was Executive Director of the path breaking global Mining at the International Institute for Environment and

Development in London. The findings of the MMSD Project established the first work plan and agenda for the International Council on Mining and Metals.
